

# "OLD GLORY" WILL FLY FROM EVERY HOUSE IN DIXON

COMMITTEE MAKES APPEAL FOR GREATEST DISPLAY OF NATIONAL FLAG

## BIGGEST CROWD IN HISTORY

Fair Weather Will See Thousands Of Visitors In This City Next Monday

Working from early morning until late at night representatives of the Short Decorating Company are rapidly attiring the business section of Dixon in gala-day dress in preparation for the biggest celebration in the history of northern Illinois, which will be held in this city next Monday. During the night streamers of the national colors and scores of flags were strung from the trolley wires in the business section, while preparations were at the same time being made for decorating buildings in the business section. Practically every business house in the city is being dressed in conformity with the general scheme, and the court house, Elks' club, Y. M. C. A., city hall and other large buildings are receiving treatment of the same kind.

Flag at Every House

The committee, in charge have been forced, because of the great amount of work, to devote all of their attention to the business district, and therefore could not make a canvass of the residence parts of the city. Accordingly an appeal is made that every citizen display Old Glory in front of their place of residence Sunday and Monday.

"A Flag at Every Home," is the slogan for the day. The Stars and Stripes should, if ever, be given the tribute that is due them this year, and it is hoped that there will be a display of the national colors in Dixon on Sunday and Monday such as has never before been witnessed in this vicinity.

Big Crowd Coming

With fair weather there is absolutely no doubt that Dixon will be called upon to entertain the largest crowd in her history, Monday, July 5, 30,000 visitors are expected, and the people of the city are making elaborate preparations to care for them. Incidentally it must be stated the entertainment to be provided for them is the most expensive attempted by a city the size of Dixon. The acts which have been secured are not the ordinary vaudeville stunts one usually sees in communities the size of Dixon.

For instance, Zeno, Jordan & Zeno, whose platform is to be 28 by 40 feet in dimensions, were featured last season by the Wallace-Hagenback shows, and this year they have been playing the "big circuit", vaudeville time. Never before has an act of the status of the Nine Castilians been seen in this city, while all of the other acts are high priced and of exceptional standing.

### The Automobile Leap

And of course the big feature act, the automobile leap by Mile LaBella and Dare Devil Hurley, is a circus feature. There should be no need of extolling such features as the committee has engaged this year, and from the interest that has been aroused in this section of the state, it is sure that the people of the surrounding territory realize the excellence of the entertainment provided.

# Used Dixon Check To Work Skin Game On Morrison Folks

Joseph Carter, who claims to be a printer, arrived in Morrison last Saturday and as a result of his speculations, D. C. Echebarger is out the sum of nearly \$5.00, while Landlord Scott of the Hotel Whiteside is out a bill for rent, says the Whiteside Sentinel.

Carter went into the Echebarger restaurant Saturday and had supper. When it came time to pay he said he did not have any funds but had a check for \$5. Mr. Echebarger cashed the check. Carter watched until Mr. Echebarger left the restaurant and then went back and told Mrs. Echebarger that a mistake had been made in his change. Mrs. Echebarger made good the alleged shortage.

# NURSE IN CHARGE OF THE HOSPITAL

AN EMERGENCY HOSPITAL AND REST ROOMS AT CITY HALL MONDAY.

Arrangements have been completed for the establishment of an emergency hospital at the city hall for Monday's monster Americanization celebration in Dixon, and a practical nurse will be in charge there during the entire day and evening. Rooms at the city hall will also be provided for resting places and men, women and children who become fatigued will find plenty of chairs and a cool place at the municipal building. The provision of rest rooms at the city hall and at the Y. M. C. A. will prove a great convenience to the women and children.

# CAMPERS TAKING LOTS AT ASSEMBLY

DEMANDS FOR GROUND AND TENTS MORE NUMEROUS THAN USUAL

The lots for tenting at the Assembly ground, together with the tents, are being disposed of more rapidly than usual this season and the outlook for campers during the Chautauqua is greater than ever before.

A large number of campers have already arrived, drawn by the bathing beach and other attractions. The evening of the opening of the beach saw two hundred enjoying the bathing. Other campers are renting the tents for periods following the Chautauqua, so that it is probable that the Assembly grounds will be the scene of camping activities through the entire summer.

# HIGHWAY OFFICERS WILL ARRIVE HERE EARLY THIS EVE

LINCOLN HIGHWAY PARTY WILL SPEND TOMORROW IN CITY AND VICINITY.

## AUTOISTS ASKED TO ASSIST

All Machine Owners Requested To Meet At 9:30—Elks At Noon.

The officials of the Lincoln Highway association, who are making a tour of the great transcontinental road, at the same time taking moving pictures of interesting scenes along the way, will arrive in Dixon at 6 o'clock this evening and will spend tomorrow in this city and vicinity.

Consul A. B. Whitcombe received word to this effect this afternoon and he has enlisted the aid of many Dixon people in the reception of the visitors, for a hearty welcome to them means good advertising for Dixon.

### Autos Out In Morning.

Accordingly it is urgently requested that every automobile owner in Dixon get his machine out early tomorrow and meet at the Elks' club at 9:30 in the morning to meet the visitors and accompany them. And Mr. Whitcombe, who is also Exalted Ruler of the Elks has requested that every Elk in Dixon meet at the club house tomorrow at 12 o'clock, noon. A surprise is in store for them.

# LOWDEN WORKER LOST "ROLL" HERE

COULD NOT PROVE HIS CHARGES AGAINST NEWLY MADE ACQUAINTANCE.

Fred Ottov, employed on one of the Lowden farms near Oregon, came to this city on Tuesday evening and after making some purchases became acquainted with one Charles Brant, employed on construction work at the epileptic grounds. The two men had several drinks together and Ottov decided to remain over night and accepted the invitation of his newly made acquaintance to be his guest over night. They engaged a room at a local rooming house and Ottov put his money, about \$15, under his pillow. On awakening yesterday morning he found his roommate gone and on looking for his money he found this also missing. He reported the matter to the police and last night both men were brought face to face at the station. Brant admitted occupying the same room with Ottov but said he knew nothing about the money and Ottov could not substantiate his previous statement to the officers that he thought Brant took the money. Hence no warrant was sworn out and the two men left the station.

Angier Wilson will make a business trip this evening to Shannon, Ill.

# Wilson To Build Modern Garage On Ottawa Ave.

Has Purchased M'Brice Property Adjacent Elk's Club For Structure

Angier Wilson, local automobile distributor, has purchased from the Dixon Building & Loan the property known as the "McBride property" on Ottawa avenue next to the Elks' club and across from the Evening Telegraph office and will immediately build a large and modern automobile garage.

Mr. Wilson paid the sum of \$4,500 for the McBride residence and lot and will wreck the house, grade the site down to street level and construct a brick and completely fireproof building 90 feet by 150 feet, the size of the lot. The work and repair shops will be built in the rear and there will be room for four rows of automobiles on the big floor.

# ILLINOIS CENTRAL BEAUTIFIES DEPOT

FORCE OF MEN ARE AT WORK AT DIXON PASSENGER STATION.

The Illinois Central railroad company has started work on the improvement of the grounds about the Dixon station. Workmen are engaged in constructing a covered driveway on the east side of the ladies' waiting room. A brick platform is to be constructed all around the building and to extend far enough north and south from the depot to permit the pulling of trucks back and forth for loading baggage and express on trains. It is also planned to lay out flower beds on the ground that was filled in last fall northeast of the building. This will make a decided improvement in the surroundings about the station.

# Tried To Enter Neighbor's House; Hearing Friday Morn

Anton Zoeller, who resides in the vicinity of Fifth street and Hennepin avenue, was arrested shortly after 3 o'clock this morning by Officer Winters, after it is alleged he had tried to make an entrance to the home of E. E. Gonnerman. The authorities, after a thorough investigation, are of the opinion that Zoeller is not entirely accountable for his actions, and that he needs treatment; accordingly he will be tried for his sanity in the county court Friday morning.

At about 2 o'clock this morning Zoeller was detected standing on a scaffold just outside one of the upstairs windows at the Gonnerman residence at the corner of Hennepin avenue and First street. Noises made by the prowler had awakened Mrs. Gonnerman and as on last Monday night there was a similar occurrence and at this time the man had entered the

# SOIL IMPROVEMENT ASSN. ORGANIZED AT AMBOY WEDNESDAY

BIG PICNIC RESULTED IN A COMMITTEE TO COMPLETE ORGANIZATION.

## S. L. SHAW IS CHAIRMAN

Committee Will Meet At Amboy July 10th To Complete the Association.

The movement to employ an official expert farm advisor for Lee county has crystallized into concrete form and yesterday's picnic and meeting held at Green River park in Amboy under the auspices of the Green River Farmers' club and the Amboy Commercial club, resulted in very encouraging progress. The result of the session at Amboy was the organization of a Farm Improvement association, which association will go forward with details of securing a farm advisor for the county.

Herbert Conner presided at the meeting, as was detailed in Wednesday's Telegraph. The speech by Dr. W. F. Handschin of the University of Illinois was highly enlightening and put added enthusiasm into the farmers and business men who are interested in the movement. At the conclusion of the speech, the following resolution was offered by Sherman L. Shaw of Lee Center, and was passed unanimously:

Resolution:  
Inasmuch as there seems a desire to improve upon the crop and soil condition of Lee county, which desire being expressed by both the business men and farmers by personal request, letters and the attendance at this meeting—which was called to take up this matter exclusively—I desire to make the following

Resolution:  
I move you, Mr. Chairman, that we take immediate action toward forming a Farm Improvement Association, and toward that end that a committee, consisting of one member from each township in Lee county, and representing both the farmers and the business men, be appointed by the Chairman, and that this committee thus appointed immediately proceed to form a Farm Improvement Association in Lee County by electing officers and adopting a constitution and by-laws such as they deem necessary to carry out to its fullest measure of success the achievements of such an association.

### Names Committee.

Chairman Conner then read the list of men he appointed for the committee, one man from each township. The list, which follows, is a list of successful farmers and business men and the selection was well made:  
Amboy—W. A. Green, farmer.  
Alto—E. L. Titus, business, farmer.  
Reynolds—Chas. Ewald, farmer.  
Nachusa—Henry Shippert, farmer.  
South Dixon—J. C. Wadsworth, farmer.  
Dixon—Amos H. Bosworth, business, farmer.  
China—Lewis E. Graves, farmer.  
East Grove—Geo. P. Meyer, farmer.  
Harmon—W. H. Kugler, business, farmer.  
Sublette—Jacob Theier, farmer.  
May—John M. Rapp, farmer.

### DANDELIONS.

The dandelion is a beautiful flower which goes to seed in the most wonderfully delicate and fairy like manner in the world.

Nothing is more beautiful than the dandelion's feathery ball of seeds. And nothing that grows is more unpopular. This is because, like the Germans, it is too efficient.

Each dandelion plant produces 1,000 seeds and each one is equipped with an aeroplane of its own. This enables it to fly in a gentle breeze from a vacant lot to the lawn of a gentleman who has just spent \$11,000 for grass seed and Mellen's food for the soil.

It is very disappointing to spend vast sums to secure a green carpet and then have it turn out yellow. For this reason, the dandelion has no friends and is attacked on all sides with the utmost ferocity. At the present time thousands of American citizens are cruising relentlessly over their premises with case knives hunting for dandelions to eradicate.

There are many scientific ways of

removing dandelions from a lawn, but people do not use them. preferring cruder methods. One of the best ways is to inoculate each dandelion plant with gasoline. Owners, however, insist on using their gasoline in their automobiles.

If the dandelion is carefully removed by the roots and boiled in salt water, it becomes limp and edible, and is also highly nutritious. In case of war it would be impossible to starve America. One vacant lot will produce sufficient dandelion greens to keep a family alive all summer.

Removing a dandelion, root and all, is easily done. The regular army could free an acre of ground from the pest in a few hours.

One of the very best methods is to remove the lawn altogether and turn it upside down. This confuses the dandelion and causes it to grow downward until it smotheres.

Men who have covered their lawns with concrete and have painted grass upon it, declare that the dandelion crop has been seriously diminished thereby.

One should not falter before the dandelion, but should take its case up vigorously and with all the science at our disposal.

## BIG WATCH FACTORY LOOT IS RECOVERED

Men with 103 Timepieces in Possession Confess.

Springfield, Ill., July 1.—With but thirty-six hours elapsing from the time of the discovery of the big Illinois Watch factory theft, Sunday morning, the alleged thieves were behind the bars, confessions of the robbery were secured and the entire loot, valued at \$3,000, returned to Jacob Bunn, president of the company.

The men arrested for the crime were Guy Lechner and Paul Hahn. Lechner is twenty-eight years old and married and Hahn is nineteen years old. Both men were employees of the Sangamo Electric company.

From the fact that the theft was peculiar and one which would demand a thorough knowledge of the company's business, suspicion was directed toward certain employees of the company. The watches taken were a lot, it developed, which were not the property of the company, but which had been returned for regulation. There were 103 watch movements all together and eighty-seven cases. Many of the latter were solid gold and very valuable. All of the cases and watches were to have been shipped the day after the theft.

The loot was found at Hahn's house, and this brought on the arrests.

## MRS. JOHN WEBB IS TAKEN BY MAKER

FRANKLIN GROVE WOMAN PASSED AWAY AT HER HOME THIS MORNING.

Mrs. John Webb, aged 81 years, died this morning at her home in Franklin Grove. Mrs. Webb had been a respected resident of Franklin Grove for a number of years, coming to Lee county from Pennsylvania, her native state, some time after her marriage in 1852 to John Webb. Her maiden name was Katherine Stanogle. Eleven children were born to this union, seven of whom are living. Two of them, Mrs. Loran Buck and Mrs. Alvin Bates, are residents of Dixon, Mrs. Lizzie Fish and Mrs. J. Jacobs reside in Sterling, Mrs. Howie Major lives in California, Walter resides at Canton, Ill., and Charlie at home.

Funeral services will be held Sunday afternoon at 2 o'clock at the late home.

## WARRANTS OUT FOR BOYS; TOOK BOAT

OFFICERS WILL STOP PRACTICE OF "BORROWING" PLEASURE CRAFT.

Much complaint has been made recently that boats are being tampered with by boys. In some instances the boats have been taken from their moorings and when the owners went to get them they found them tied at different points along the bank. Yesterday three boys took two motor boats tied near the milk factory belonging to Mike Smith and L. O. Beecher, and had them out on the river most of the day. When the owners went to get them they found the engines would not work without adjustment. Becoming tired of the practice they swore-out warrants for the arrest of the boys which have been put in the hands of the officers. Two of the lads are now out on parole for previous offenses of which they were convicted.

## \$1,635,000 Hidden

In This Year's Goodyear Tires

### Here are amazing facts:

Goodyear Fortified Tires contain five costly features found in no other tire. They have other features not common.

If we omitted those features, this year's probable output would cost us \$1,635,000 less. We could add that much to our profits. And you would never know it until troubles came.

This year's improvements alone will cost us \$500,000 yearly. Most of this goes into extra rubber—all into extra wear. And we shall spend on research \$100,000 this year to find other betterments still.

### Users Save \$5,000,000

Yet our 1915 price reduction—made February 1st—will save Goodyear users about \$5,000,000 this year. And that was our third reduction in two years, totaling 45 per cent.

These extra features—used by us alone—will save users millions more.

That's why Goodyears dominate. They have long outsold any other. They are gaining new users faster than we can supply them. We hope, for your own sake, that they'll soon win you. Any dealer will supply you.

## SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the bells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

## DEMENTT OWN DOING

Appropriate advice to the small boy is now in style. Care should be exercised with giant firecrackers.

In this connection children should remember that the emergency hospital will be situated at the city hall.

### Tragic.

Luncher—Is this meant to be short cake?

Waitress—Yes, sir.

Luncher (sarcastically)—Then for heaven's sake take it away and berry it.

### A Wise Girl.

Darling, I think of you every moment in the day.

Law sakes, Tom, give some attention to your work or you'll get fired.

### Glad To Do It.

"No, I didn't come up to business yesterday," said the stout man in the corner of the carriage. "The last of my daughters was getting married, so I had to give her away."

"Really? Who was the happy man?" inquired a polite fellow passenger.

"I was," said the parent, emphatically.

## SAGE HAIR DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.

Every safety razor blade sharpened as good as new at Campbell's Drug Store. 1011

## MAGAZINE PUBLISHER IS HERE

Mrs. Joe M. Chapple Is Former Lee County Woman.

Many old friends in Dixon and vicinity will be pleased to learn that Mrs. Joe Chapple, formerly Miss Anna Ryder, of Prairieville and Dixon, is here visiting. Mrs. Chapple was the daughter of Elisha Ryder, who at one time conducted the store at Prairieville. She was born in Palmyra township and lived there and in Dixon until she was twenty-one years of age, at which time she was married and moved away. She went to school in Dixon and has many old acquaintances here now. She is visiting Mrs. O. H. Quinby. She and her husband are now publishers of the National Magazine in Boston.

### FAMILY THEATER

For the four days commencing tonight, the Family theater announces a program of unusual scope, with novelties in abundance.

One wonderful little canine actor will be introduced in the novelty offering of Ford & Truly. Mr. Ford is a regular looking fellow with ability to sing and dance in most approved style. The novelty of the offering comes in with the clever little dog going through the dancing routine with his trainer. This is an attraction that is new to this part of the country, hailing direct from the metropolitan cities where it has been seen only in the higher priced houses, but through special effort has been secured for this brief engagement at the Family.

The latest dance creations will be interpreted in dashing manner by the excellent and famous team of Rice and Davis. This is an offering that will be highly appreciated.

Miss Hazel Lynch, a singing and dancing comedienne of unlimited talents, will be a prime favorite, and the usual program of movies is of interesting caliber.

The pictures tonight are: "A Woman's Revenge," an Edison drama in two reels; Sidney Drew in "When Dumbly Saw the Joke," a Vitagraph comedy.

### AT THE OPERA HOUSE

"Dr. Jekyll and Mr. Hyde," a play full of thrilling action, will be presented this evening by the Enterprise Stock Company. The pictorial program includes "The Grind," a 3-reel drama, featuring Pauline Bush and Lon Chaney.

### PRINCESS THEATER

Tonight the Princess theater will show a two reel American feature entitled "His Obligation," with Ed Coxen and Winifred Greenwood in the leading roles. A strong drama of regeneration showing how a man is roused to his moral responsibility. The other pictures are a Majestic comedy entitled, "Pirates Bold," the latest of the inimitable juvenile comedies with an all star cast. The last reel is a comic comedy entitled "Unwinding It," a good farce comedy with amusing complications, which are caused by stolen money getting into wrong stockings.

### Let the children celebrate the Fourth with a Victrola

Instead of getting a lot of dangerous fireworks, let them enjoy themselves in a safe and sane way with the Victrola.

Get them some Victor Records of stirring band music and patriotic numbers and they'll have a jolly good time on the glorious Fourth and for many days to come.

If you haven't a Victrola you can easily get one—\$15 to \$250, on terms to suit your convenience.

Stop in and we'll gladly play any music you wish to hear.

## MATERIAL TIE-UP PARALYZES CITY

Chicago in Grip of Lockout in Building Trade Lines.

### ALL PLANTS CLOSE TO-NIGHT

Contractors Are Cut Off From Supplies and Unemployed Will Reach Over 200,000 Men—Plan Is to Force Striking Carpenters to Arbitrate With Contractors.

Chicago, July 1.—All arrangements have been made by the building material dealers to close their plants in a campaign to force all unions having strikes to arbitrate.

The order to shut down will throw out of employment more than 200,000 men, according to estimates. Several thousand teamsters engaged in hauling material, the building trades craft now at work, and the employees of all allied industries will be out of work.

The material industries to close and the number of establishments are:

Lumber interests, seventy yards; brick manufacturers, forty-four yards; lime kiln companies, twenty-four; sand, stone and gravel interests, fifteen establishments; sash, door and blind mills, forty-eight; planing mills, ten; terra cotta companies, two; elevator operating companies, three; hardwood floor manufacturers, five.

#### Carpenters Must Arbitrate.

The general shutdown is intended to force the 16,000 striking carpenters, who have been on strike since May 1, to agree to a settlement by arbitration. The carpenters went out because a wage increase of from 65 to 70 cents an hour was refused them.

#### Goes into Effect Tonight.

Ten thousand persons directly employed by the dealers will be laid off tonight, when the order to close all plants will go into effect.

Contractors for buildings in course of erection will be unable to obtain further supplies of lumber and brick and before Saturday night it is estimated that 20,000 additional building trades workmen will be forced into idleness.

#### Building Work to Halt.

The closing down of all material plants will stop all building work, the leaders in the movement state. Very few contractors make written contracts for lumber, it is asserted, and because of that there will be no legal redress for those forced to discontinue building.

#### All Buildings Affected.

Arrangements have been made to send horses into the country. Many will be pastured in Indiana. The teamsters have been notified that they will be laid off tonight.

Such a lockout as is contemplated will affect every line of business. When workmen cannot make their usual purchases it is felt by all kinds of business. Fewer cars are being sold because of the many strikes on, and several hundred cigar makers have been made idle. The lockout will increase the number. Merchants are letting out clerks and other employees.

#### Gooseberry Party

Mrs. Oscar Miller entertained yesterday with a gooseberry party, the following ladies being guests: Mrs. Feldkirchner and daughter of South Dixon; Mrs. John Wadsworth of Har mon, Mrs. Harrison Wadsworth of Hazelwood, Mrs. D. M. Hubbard of Dixon, and Mrs. Paul Harms of Pal myra. The ladies picked berries in the Miller woods until noon when a bountiful scramble lunch was served with ice cream as a treat furnished by the South Dixon ladies. At a late hour the ladies departed thanking Mrs. Miller for a very delightful day.

## What Name Is On Your Refrigerator

Is it AUTOMATIC? If so then you need have no fear, it is all a refrigerator should be—it is, in fact, a refrigerator, and you feel perfectly safe in placing Fruit, Vegetables, Meats, Butter, Cream and Milk in the food chamber—All In One Refrigerator—if its an Automatic and not have the food flavors mix.

Then too, you may feel perfectly free to leave home and not be alarmed about your refrigerator clogging—if its an Automatic—the Automatic can't clog—they're equipped with a non-cloggable water trap.

Then too, if you have an Automatic your Ice Bills will be very small indeed—in fact—the automatic uses less ice than the ordinary common refrigerator, and you may have an Automatic with a "built in" water cooler—this plan gives you sparkling cold drinking water at no extra ice cost—Automatic Refrigerators can be seen at our store in all sizes and the price is pleasing.

Don't feel obliged to buy just because you come in to look them over today.

JULY 1 1915

I AM THE NEWSPAPER.

(From an address delivered by Joseph H. Finn, President Nichols-Finn Advertising Co., Chicago, before Associated Advertising Clubs of the World Convention, Chicago, June 22nd, 1915)

Born of the deep, daily need of a nation—I am the Voice of Now—the incarnate spirit of the Times—Monarch of things that Are.

My "cold type" burns with the fire-blood of human action. I am fed by arteries of wire that girdle the earth. I drink from the cup of every living joy and sorrow. I sleep not—rest not. I know not night, nor day, nor season. I know no death, yet I am born again with every noon—with every noon—with every twilight. I leap into fresh being with every new world's event.

Those who created me cease to be—the brains and heart's-blood that nourish me go the way of human dissolution. Yet I live on—and on.

I am Majestic in my Strength—Sublime in my Power—Terrible in my Potentialities—yet as democratic as the ragged boy who sells me for a penny.

I am the consort of Kings—the partner of capital—the brother of toil. The inspiration of the hopeless—the right arm of the needy—the champion of the oppressed—the conscience of the criminal. I am the epitome of the world's Comedy and Tragedy.

My Responsibility is Infinite. I speak and the world stops to listen. I say the word and battle flames the horizon. I counsel peace and the war-lords obey. I am greater than any individual—more powerful than any group. I am the dynamic force of Public Opinion. Rightly directed, I am a Creator of Confidence. A builder of happiness in living. I am the Backbone of Commerce. The Trail-Blazer of Prosperity. I am the teacher of Patriotism.

I am the hands of the clock of Time—The clarion voice of civilization. I am the Newspaper.

## WHERE WE SHOULD INVEST.

It is going to be a gigantic task for the financiers, bankers and manufacturers of the United States to finance the trade obligations that are being created here by European governments and European importers, but that, to a certain extent, should be done—should be done to an extent limited by the safety line—but any efforts to absorb the funds of United States investors or United States financial institutions through European issues of loans beyond the actual trade obligations due this country should be promptly opposed by our business people.

To carry Europe on her trade obligations will tax our country's capital; to finance South America as a commercial customer will add to the strain; to carry our own splendid and prosperous business now will give full employment to all available funds.

This country is stronger—very much stronger—financially than it was one year ago, but its capital, used here in business development that all our people will be benefited by, will be more widely used, more safely used, more certainly preserved, than if it were put into loans of the governments of Europe—governments that may disappear on the stricken fields of battle or be overthrown by the anger of the populace which so often is displayed after long armed conflicts and severe defeats.

American investors should invest their capital in the United States rather than endanger it in the midst of the conflagration which is sweeping Europe.

American financiers should co-operate to direct the increasing capital of the country to the greater development of our railway systems, of our water powers, of our merchants marine, of our industrial resources, of our commercial operations, to the building up of the United States, and they should be very shy of European war loans.—Cincinnati Enquirer.

## AMERICA LIKES GERMANS.

Americans have always heartily liked the Germans. They have welcomed them as immigrants, rejoiced in them as citizens, been proud of their achievements. The Courier-Journal, in common with many American newspapers, has said time and again, the more Germans in America the better for America, and has regarded the German-American as combined with the stalwart honesty, the industriousness, the capability, of the German in Germany, the appreciation of freedom that a German gains when he leaves an oppressed military monarchy and becomes a citizen of a peaceful republic. The Germans in America have been, heretofore, famously "American." It has been a matter of often expressed regret because they have been so well pleased with their privileges, their opportunities, their immunities, in America they have neglected the German language, and the rich literature of Germany, in their homes and many sons and daughters of Germans have grown up unable to read, untranslated, the poetry and philosophy of a race whose descendants should retain pride of race without regard to their having become citizens of countries other than that of their Teutonic progenitors.—Louisville Courier-Journal.

## MINUS THE TOM-TOM.

What a different appearance the cabinet presents this morning from that which it presented sixteen days ago; how much trimmer, smarter, more shipshape; how much less ragged-looking, less untidy, with the loose ends gone! It is hard to realize that the impression of general sloppiness which it made was due almost entirely to the presence of one man, and yet how a single change has improved it and how business-like it looks. The chief change in the popular feeling is one of certainty; there is no longer that uneasy dread of what the secretary of state will do next, what new freak, gyrations or trapeze performance is to be looked for. The tom-tom is gone from the furniture of the state department.—N. Y. Times.

The present plight of the ex-President of Mexico, Senor Huerta, ought to be a lesson to one of our own ex-Presidents. This war fever is very dangerous.

The Germans escape at least one of the horrors of war. They don't have to be killed by President Poincare.

Bet Teddy Roosevelt grashes his grinders when he thinks how strong Charlie Chaplin is with the public.

## Ten Points of Saxon Superiority

SAXON \$395.00

## 1—Roominess

The Saxon car has a good deal more room inside the body than any other roadster at anywhere near its price. There is actually room for the largest people to stretch their legs and be thoroughly comfortable in a Saxon car.

## 2—General Riding Comfort

The Saxon has unexcelled springsuspension and it is actually under all conditions the most comfortable car to ride in. You can demonstrate this to yourself.

## 3—Appearance

We think that we have a better looking car than any other within \$300 of the price. The lines of the Saxon are attractive. It is the modern streamline type of body and the Saxon makes a harmonious whole. It is not too high and is not in any sense awkward looking. It is graceful.

## 4—Ignition

The Saxon has as good ignition system as cars selling at any price. There is positively no question about this. The only reason anyone could doubt the truth of this statement would be through ignorance of the actual merits of the Atwater-Kent system as compared with the cheap magneto, or for that matter, with any magneto.

## 5—Quietness

The Saxon is a quiet car. The motor is quiet under all conditions, both idle and running. There are no spring shackle noises on the Saxon, owing to our cantilever type of spring, and the Saxon will develop fewer rattles after a given period of use than other cars in the same price class.

## 6—Cooling

The Saxon positively cannot be made to overheat under any conditions, while some other low priced cars will overheat very easily.

## 7—Better Bearings in the Motor

We have better motor bearings than motor bearings used in some other low priced cars and they will, on that account, wear better. We have bronze backed, babbitt lined bearings, as good as in any car made. The materials and workmanship all through our motor are the best that money can buy.

## 8—More Economical Operation

The Saxon car will run more miles to a gallon of gasoline than other cars, and can be maintained cheaper year in and year out because it will use less gasoline and oil and tires. Our repair parts are low in price.

## 9—Flexibility on "High"

The Saxon motor is flexible while running on high gear. The motor will throttle down lower and pull better at slow car speeds on high speed, and it will run faster with less fuss than in many other cars.

## 10—Biggest Point of All—the Saxon is Different.

Have you ever stopped to think that this is the biggest point of all in favor of the Saxon? It is a car of quality, class and economy. It has proven its all-round daily usefulness in officially conducted tests and in the hands of thousands of owners. It has proven its superiority over many cars by performing feats that have heretofore been considered an impossibility by motorists.

## POLO HOME COMING FESTIVAL TOMORROW

THREE DAY CELEBRATION WILL  
BE HELD—BIG TIME IS  
PROMISED

### HON. M'KENZIE IS SPEAKER

Celebration Will Also Mark Semi-Centennial of Ousting Of Saloons

Polo's three-day celebration to mark their home coming, the semi-centennial of the ousting of saloons and Independence Day will commence tomorrow extending over Sunday. Tomorrow will be Home Coming day and the speaker will be Hon. John C. McKenzie, congressman from this district. In the afternoon Mrs. Florence Richards, state president of Ohio W. C. T. U. will speak at a meeting which will be in charge of the W. C. T. U. This will be their special meeting. Mrs. James Donaldson, president of the W. C. T. U., or some one selected by the society, will preside.

At the informal program and general reception Friday evening, and at the Fourth of July program Saturday morning. Mayor Nichols will preside by reason of his office as chief executive of the city.

The Fourth of July orator will be Hon. Claude J. Hendricks of Milwaukee, Wis., a lawyer and speaker of ability whose address will be well worth hearing. The committee considers itself fortunate in being able to secure him.

The meeting Sunday afternoon will be in charge of the Youth's Temperance Alliance and will be presided over by some one selected from or by that organization. It is hoped to have an address by Hon. J. H. Freeman and a short talk by Mayor W. W. Bennett of Rockford.

At the closing meeting Sunday evening, Attorney Robert L. Bracken, representing the general committee, will preside. Addresses will be given by Mayor Bennett of Rockford and by Judge James H. Cartwright of Oregon.

For the parade the first day the committee plans to have each Sunday school assemble in its regular place and to march to the corner of Dixon and Congress streets.

## MATHIAS & HATTON PURCHASE BIG STORE

YOUNG MEN BOUGHT COUNTRY-MAN ESTABLISHMENT ON WEDNESDAY EVE.

For the second time in twenty-four hours the Countryman store changed hands again Wednesday evening, Geo. B. Stitzel selling the establishment to Lee Mathias and Silas Hatton, who took immediate charge. The new proprietors announce that the stock will be replenished and the market will be continued. Both are experienced men and have many friends who will wish them success. Mr. Mathias has been connected with several of the local groceries and was until recently proprietor of the Soda Grill, while his partner, Mr. Hatton, has had much experience in the dry goods business, having served as assistant buyer for Marshall Field. For the past year he has been in charge of the dry goods department at the store of which he is now part owner.

#### CHAPTER IX.

##### The Narragansett Bay Defenders Fall.

**F**AR inside of the bay, so high in air that it was little more than a shining speck, the aeroplane was describing a series of regular, equal circles. All at once, as if it had been painted in the air with a mammoth brush, a jet black descending streak stood out against the sky and lengthened steadily toward the earth.

The azimuth and other range finding instruments at both ends of the battle-ships caught the angles and ascertained the range to the black smear that still hung in the air like grease. The aviator had dropped a smoke bomb to indicate the fort below.

The forward turret of a battleship turned. Its hooded rifle lifted its muzzle to an angle of fifteen degrees and spoke with a great voice.

Eleven miles away a ton of steel rushed from the sky, crashed into the water of the bay roaring, ricocheted, struck again half a mile beyond and again and again. Four times it rebounded like a pebble before it disappeared at last, and each time it filled the air with its clamor like a suffering thing. [The latest type of sixteen inch naval gun has a range of 23,000 yards, or eleven and one-half nautical miles, which is a little more than thirteen statute miles. \* \* \* A projectile from a twelve inch rifle gun (U. S. A. coast defense type) which was fired in the presence of the author ricocheted seven times.]

The ship's wireless caught a signal from the aeroplane. The shot had fallen short. The battleship steamed on, and another one in line opened up the mouth of the harbor and fired.

From the aeroplane fell a silver ball. It glittered in the brightening sun, splendid. "Hit!" went the message to the turret, and the crew there embraced and cheered.

It had hit the outer earthworks of the defenses. It had plunged down with a shock that stunned men in mortar pits and gun emplacements far away. Small wonder, for this thing falling from the sky had struck a blow equal to that of New York's obelisk plunging into Broadway from the top of Trinity church steeple!

"No effect!" reported the watchers in

They were trying for a prize that was worth all the guns in their turret. They knew that inside of the works there could not be more than a few thousand men, if that much. They knew that all the coast artillery forces of the United States combined numbered only 170 companies and that these 170 companies had twenty-seven harbor defense systems to guard. Even if the United States had stripped its other defenses to the utmost, there could not be a sufficient force in these that were now being attacked.

So they poured fire on fire and shot on shot. It was a one-sided duel, for their great guns outranged the fourteen inch guns of the defenses. The men in these fired only occasionally, when their observers and range finders and plotters perceived an opportunity. There was another reason for their slow fire besides the inability to reach. Those perfect defenses, those perfect products of engineering science, those results of millions on millions of expenditure, contained only enough ammunition for two hours of firing! [The ammunition now on hand and under manufacture is 73 per cent of the allowance fixed by the national coast defense board. Last report to the chief of staff, U. S. A. \* \* \* "The actual supply of ammunition at present is very considerably behind even that modest standard"—i. e., the minimum allowance—"and in many cases of our most important seacoast guns would be sufficient for only thirty or forty minutes of firing."—Henry L. Stimson, Former Secretary of War, March 1, 1915.]

They waited till the enemy ships should try to force the passage and come within range, that they might make those two hours two hours of unspeakable destruction that should glorify their death with the fiery splendor of bursting ships.

The enemy did not try to force the passage. While they saved their ammunition these defenses were fearful gladiators to approach. None could come within reach of their steel hands and live.

But the gladiators were gladiators fearful only in front. Steel gauntleted, armored with steel breastplates and shinplates, mightily visored—so they faced the sea. In the back they were

had heard their names, had subscribed enough money to raise and equip an army twice over and keep it in the field for months. But the country that was so efficient, so intrepid, so resourceful, was facing a disaster now that it could not conjure away with all the money and men that ever were.

Money, the magician, was futile now. It could not stamp its golden foot and make gun factories and ammunition works spring from the empty ground. It could not send to the army in Connecticut cannon that did not exist or cartridges that had not been made.

An order had gone out from the American headquarters that morning, an ominous warning that, given in battle, would have indicated surely the beginning of the end. It was:

"IT IS OF THE UTMOST IMPORTANCE THAT NO AMMUNITION BE EXPENDED WITHOUT URGENT NEED. COMPANY COMMANDERS WILL ENFORCE THIS ORDER RIGOROUSLY."

While the futile dollars were being flung to the government for new armies the army that was already in the field was counting its small arms and artillery ammunition, knowing that it did not possess enough for two days' battle.

From ocean to ocean men with naked hands were crowding to enlist. The generous nation that never yet had decried a need when the need was made apparent was as generous with its lives as with its dollars. For two and three blocks around the recruiting stations of regular army and militia the streets were packed with men. They had come from work and pleasure. They had come home from far places. They had dropped shovels and tennis rackets, pens and picks. They stood shoulder to shoulder in fine stuffs and in rags, made equal by one loyal purpose. And they were as futile as the dollars.

One million men, it was computed afterward, had offered themselves in America in that one day. But there were no weapons for them. There were not enough rifles. There were no uniforms. There were no tents. There were no shoes.

Keen eyed men of trails and wilderness offered themselves for the signal corps. There were no signal corps supplies. Telegraphers were there, but all the field telegraph outfits that the country had were with the army. Teamsters volunteered, but there was no reserve of army wagons. Men trained in bridge building and engineering were turned away because there was no equipment to fit out sorely needed companies of miners and sappers.

Cavalry was needed urgently, and men who could ride tried to enlist, but there were no mounts for them. Army officers in Texas and New Mexico and Oklahoma were buying, at unheard of prices, rough horses wild from the range, while in Connecticut were regiments of regular cavalry whose troops were only three-quarters filled with either men or horses.

Money, money, money! Men, men, men! It was too late. In a village north of New Bedford stood a little crowd of farmers, gathered around the general store and listening to the sheriff. He was warning them that they must not attempt to resist the invading troops when they came.

"I know that you—and you," said he, pointing to men as he spoke, "brought arms with you. You'd better give them up to me." "And you an American!" growled one of the men. The sheriff did not retort. He was scarcely past middle age, but there was a great, slow patience in his face that made him look old.

He shook his head and said, "It's only for your own sake."

"Look!" cried a farmer. "Who is coming here?"

The man who was coming was a man on a motorcycle. Man and machine were so coated with dust, were speeding so desperately that even without war in the land one would stare at this flying thing, one would wait with eyes and lips open to learn what startling message it was carrying. Man, roaring motor and their brother pillar of dust crashed by. They had disappeared before the breathless watchers realized that the man had waved an arm at them and had screamed, "Soldiers!"

A farmer ran to his wagon and pulled out a rifle from its hiding place under the wagon seat. "Come on, boys!" he said. "Listen! Listen!" The sheriff shouldered forward. "Men, neighbors, old friends! For God's sake, listen! You have no right to fight!"

"What?" The sheriff's young brother, sturdy, handsome, suddenly ferocious, brought his face close to him. "No right to defend our country? Are you crazy, Jim?"

The patient man shook his head again. "It is against the rules of war." "Then curse the rules of war!" shouted the younger. "Are you a coward?" The sheriff reached out and touched his brother's arm. It was a secret, almost a timid, act. The brother threw off the appealing hand.

"Don't touch me!" He spoke through

set teeth. "If you are a coward and traitor may you be damned through all eternity! Again, for the last time, will you fight?"

The sheriff raised his hands dumbly. The men went to their wagons and returned with arms.

"To that stone wall yonder!" said one.

He pointed into a field with a rough stone wall dividing its center 300 or 400 yards from the road. This man was an old hunter, and the others had followed him often. He took command now as a matter of course.

The sheriff watched them flounder through the plowed field. He stood still for a minute. Then he hurried to his house, emerged with a gun and joined the party. Two miles away a squad of ten invading cavalrymen cantered over a ridge and examined the country through their field glasses. They studied the ground foot by foot, almost inch by inch. Satisfied, they trotted toward the village.

## AMBOY NEWS

Amboy, June 30—This is an ideal picnic day, and the park is crowded with automobile parties who came many miles to spend the day in Amboy and listen to the excellent address by W. F. Handschin, State leader of the County Agent movement of the United States Department of Agriculture. At 9 o'clock the Amboy band gave a concert on Main street; at 10 a. m. Amboy and Sterling played a base ball game, with Sterling victorious, then a big picnic dinner was enjoyed, with free coffee, cream and sugar, furnished by the committee. The beautiful shade trees furnished an excellent canopy, under which all could rest and partake of their lunch. The Beveridge band also furnished music, during the afternoon and evening, in connection with the Amboy band.

Mr. and Mrs. J. Albrecht and family of Bradford are here today.

Mr. and Mrs. Frank Meeks and family motored to this city today.

The little son of Mr. and Mrs. Thomas Dwyer of Marion is suffering from an abscess on his head.

Frank Vaughn, Jr., is assisting in the J. S. Briggs grocery store.

August Cahill and sister, Miss Nellie, of Walton, are attending the picnic today.

Miss Leila Hauze and Roy Doty were married at 2:30 o'clock today, at the home of the bride, on West Division St. After an extended trip around the lakes, they will be at home in Amboy to their many friends.

Mrs. A. Kauffman chaperoned a party of 27 young people of the Baptist church to a picnic at Starved Rock. All had a merry time, returning on the evening train.

## WM. R. ROUTT DEAD, AGED 83

Was Founder of Routt College and Prominent Catholic Layman.

Jacksonville, Ill., July 1.—William R. Routt, one of Morgan county's wealthiest residents, died at his home here, aged eighty-three.

Mr. Routt was a director and vice president of the Elliott State bank, the founder of Routt college, which he endowed with \$50,000 on the day of its dedication, and was one of the leading Catholic laymen of the state.

## TWO DEAD AND THREE UNCONSCIOUS BY GAS

### Murder Plot Suspected in Fort Wayne, Ind., Tragedy.

Fort Wayne, Ind., July 1.—Two already dead and three still unconscious, with their recovery in doubt, are the results of what is believed to have been a deliberate plan to murder by the use of gas, discovered when neighbors burst in the door of the home of Matt Gooley, 1820 Weiser Park avenue, here. The dead are Gooley, aged fifty, and his son Donald, age ten. The wife and two daughters, Hazel, age twenty-one, and Loretta, eighteen years old, are at local hospitals hovering between life and death.

Gooley was found dead on the floor of the kitchen at his home and gas was streaming from two burners in the range. The other members of the family were in bed upstairs, unconscious. The police hastily rushed them to hospitals. The boy died in an ambulance on the way.

The police say Gooley went home in an intoxicated condition, and it is believed he planned to carry out repeated threats that he would kill himself and wipe out his family. The odor of gas from the Gooley home led neighbors to make the investigation which led to the discovery of the tragedy.

### CHICAGO'S FIGHT AGAINST VICE.

Chicago, June 26—In its fight on abortion parlors, Chicago is planning to fight the evil in a novel way. Coroner Hoffman conceived the plan. He would have the city erect and maintain a maternity hospital which would encourage prevention of unlawful operations. Coroner Hoffman would have a law passed making divulging of the name of a patient punishable by a jail sentence. Luckless mothers would be admitted to the hospital under rules of the strictest secrecy. Births would be recorded and the babies offered for adoption, in case the mother could not or would not keep it. Women suffering from venereal diseases, it is planned, would be treated at the hospital free of charge.

THE LAST STAND OF NARRAGANSETT DEFENDERS.

the coast defense to the commandant. Though the impact had shaken the works and the very earth, though the blast from the explosion of its charge had twisted three inch iron bars within the works and bent the steel doors of casemates, it had done no harm to the defenses. So well had they been built by the engineers that the rending explosion left a crater for only a moment. The earth rippled down and closed it. The steel and concrete facing underneath held true.

The enemy had the range. Ship after ship passed the entrance, delivered its single shot, proceeded and returned to follow in the circling line. These were the most modern Dreadnoughts, firing from sixteen inch guns. Their shells tore the earth embankments away in cones and hung dirt high in air and sent it down to bury everything in its way under mounds. But all their fire and all their havoc was in vain unless they could hit a gun. And the guns were protected by steel armor and concrete and earth piled on earth.

To hit a gun was to attempt to hit a bulwark only a few feet square at a range of eleven miles, farther than men can see.

Still the bombardment went on, undeterred. More aeroplanes soared over the defenses now, far out of reach from shots, and circled and signaled. The fire grew. The ships were not hesitating now to wear out the rifling of their guns. They meant to give the defenders no rest.

naked. Fire and noise and bursting charges and explosions that made hot gales within the works and whirled men like dried leaves! An hour passed. Still from the sea there came the coughing hollow that made the air tremble and rolled inland like summer thunder among hills. Still there fell the screaming steel from the sky. Another hour! And still it came.

The sun was overhead. Suddenly into the naked back of the defenses poured fire and steel that hammered and beat and tore through them. Under it through flame and smoke and flying dirt appeared shining rows of bayonets. With a yelp 10,000 men poured in. [Army and naval officers, both American and foreign, believe that 5,000 men would be more than sufficient to take such works if they are manned only by their coast artillery companies and undefended by a mobile army.]

And through the United States, smiting it into the dumbness of despair, went the news that the great Narragansett defenses had fallen and that the enemy fleet was entering the harbor. America had lost Narragansett bay, with all its defenses, great guns and government stations, in less than two weeks after the declaration of war!

Before the news of Narragansett's fall was an hour old the cities of the United States, including many towns so obscure that few Americans ever

## LIVES END AFTER AUTO RIDE

Wife Dies Three Hours After Husband Expires in Auto. Danville, Ill., July 1.—When William Hahne, retired business man, and former alderman of Danville, fell dead in his automobile, while riding with his wife and children, the shock proved too much for his wife, Mrs. Tilda Hahne, and she died three hours later. Hahne had broken down in health after amassing a fortune. He had been an invalid for six months. Mrs. Hahne was formerly Miss Tilda Merrick of Madison, Ill. They were married there in November, 1891. A double funeral will be held.

Warn Against Horse Thieves. Bloomington, Ill., July 1.—Central Illinois authorities are receiving numerous reports of horse stealing, many of the stolen animals being shipped to the cities where buyers for the armies of Europe are assembling horses for exportation. Owners of horses are warned.

## FOE'S COLLAPSE IS PREDICTED

Paris Announces That French Troops Advance on Gallipoli Peninsula—British, Too, Report Gain—Constantinople Statement Claims Ottoman Success—Says Allies Lose.

Paris, July 1.—A Havas agency dispatch from Athens says the exhaustion of the Turks facing the French forces on the Gallipoli peninsula is evident and leads to the belief that the Turkish position at Krithia soon will be taken by assault. In a recent advance made by the French, it is added, 6,000 Turks were found dead in the trenches on the front taken.

Considerable Gain for Allies. Recent fighting in the Dardanelles has resulted in an appreciable advance by the allies, the dispatch asserts. The French troops under the leadership of General Gouraud, commander of the French expeditionary force, have especially distinguished themselves. Facing the French, the Athens correspondent continues, the Turkish front does not exceed three and one-quarter miles, which artillery sweeps continually. The Turks are meeting with increasing difficulties in bringing up reinforcements and supplies, while the allies have every facility for supplying their needs.

It is reported from a reliable source, the correspondent adds, that German officers have left Jaffa in Palestine and an important port in a neutral state for Tripoli to lead the natives there against the Italians. The Turks, the correspondent reports, are said to have gained to their cause a Senussi chief, who promises a general rising of the Arabs in Tripoli.

Take Turk Trenches at Saghir Dere. London, July 1.—A British official statement dealing with the operations in the Dardanelles announces that two lines of Turkish trenches have been captured east of Saghir Dere and that three lines have been stormed west of that place.

Turks Report Successes. Amsterdam, July 1.—(Via London.)—An official communication issued at Constantinople announces that the Anglo-French forces, June 28, thrice attacked the Turkish left wing at Avl Burnu and the Turkish right wing at Seddel-Bahr, but were repulsed, on both occasions with heavy losses. The Turkish center, the statement adds, in the course of counter attacks captured two lines of allies' trenches, inflicting great loss, and silenced the allies' batteries on Cape Tepeh.

## DRYS MAKE GAINS IN UTAH

Prohibitionists Pile Up Increased Majorities and Win Wet Towns.

Salt Lake City, Utah, July 1.—The latest liquor elections increased Utah's dry territory materially. The towns of Logan, Provo, Richmond and Smithfield continue dry by increased majorities over the previous election. Farmington and Marysville went from the wet to the dry column, Milford remains wet and Phoenix, a new town in Bingham canon, went wet. A tie vote took place at Gunnison, which will remain dry unless the official count changes the vote.

## Coke Workers' Pay to Advance.

Connellsville, Pa., July 1.—Announcement was made by W. J. Ralney, the largest independent coke operator in the Connellsville district, that wages will be advanced to the 1912 scale, beginning July 1. The 1912 scale was the highest wage ever paid in this region.

## Want Uncracked Liberty Bells.

Gary, Ind., July 1.—Gary citizens refused to buy coat lapel replicas of the liberty bell from vendors because the bells were cracked.

## FORD WINS INSURANCE SUIT

Insurance Company Must Pay Damages to Manufacturer.

Murphysboro, Ill., July 1.—The Ford Manufacturing company, makers of roofing material, won its suit to recover damages from the Greenwich Insurance company and the amount of its \$1,500 fire insurance policy. A jury in the Jackson County Circuit court awarded the concern \$25,000 costs and \$1,500 on the policy, the latter with interest at 5 per cent from March, 1913.

A fire destroyed the buildings of the company's plant at Vandalla, Ill., in March, 1913. The defense charged the plant was over insured. The jury appraised the burned property at \$89,064. The suit is the fifth of seventy suits arising from the fire won by the company.

The Telegraph has employed the services of Geo. Murray as country circulator. John Thome still retains his position as solicitor and circulator for this paper.

## ARE YOUR KIDNEYS WELL

MANY DIXON PEOPLE KNOW IMPORTANCE OF HEALTHY KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, if you are nervous, dizzy or worn out, begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Dixon testimony. W. Walford, blacksmith, Peoria avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

## HEALTH RESORT FOR ILLINOIS

Taggart Syndicate Buys Siloam Springs in Brown County.

Bloomington, Ill., July 1.—S. E. Johnson, owner of 1,000 acres of land in Brown county, upon which are situated the Siloam springs, has disposed of his holdings for \$47,000 to a syndicate composed of Roger Sullivan, Chicago; Thomas Taggart and H. L. Kramer, both of Indianapolis, and Congressman W. B. McKinley of Champaign.

It is said that the new owners are planning to open a health resort similar to those in Indiana, in which Taggart is interested.

## THREE MORE TAKEN IN ALLEGED HUERTA PLOT

Ike and Frank Alderete, El Paso Residents, Arrested.

El Paso, Tex., July 1.—General Marcelo Caraveo and Ike and Frank Alderete were arrested by federal officials in connection with the alleged Huerta plot to launch a new revolution in Mexico. This makes a total of six arrests on like charges since General Huerta was taken from a train at Newman, N. M., Sunday and brought to El Paso with General Pascual Orozco by United States officials. Jose Zozaya, another of the alleged plotters, was taken into custody late Tuesday. Before the United States commissioner General Caraveo's bond was fixed at \$5,000 and the bonds of Frank and Ike Alderete at \$4,000 each. The hearing has been set for Thursday morning.

Ike Alderete was formerly district clerk at El Paso county and is now engaged in the real estate business with his brother Frank. Frank is former sanitary commissioner of El Paso.

A shipment of 346 rifles and 46,000 rounds of ammunition was located in the Mexican quarter Tuesday night, according to a report received by the police. It is believed that the ammunition had been bought by agents of the Huerta junta here and was to have been used in the new revolution.

## MEXICAN TRUCE ON, REPORT

Villa and Carranza Will Make Peace Plan Public, Says General.

El Paso, Tex., July 1.—Following the announcement that Villa and Carranza are considering a peace agreement to avoid a new revolutionary movement which might unseat them both, Chihuahua reports that a temporary armistice has been declared near Encarnacion, south of Aguascalientes. Travelers from the south report that furious fighting was in progress Monday at Encarnacion between Villa and Carranza cavalry.

General Jose Isabel Robles, minister of war under Gutierrez, said he expected the peace plan to be made public in a day or two.

Diamond Edge Hatchets are made in all the various styles. The cutting edge of each hatchet is made of extra crucible steel, carefully tempered, thoroughly tested, and ground down to a perfect cutting edge. The handles are carefully set, and they have that balance and feel that the workman demands.

A Diamond Edge Hatchet costs you a few cents more than the other kind. For these few cents you get the difference between the thoroughbred and the scrub; you get the finest of steel; the tested quality of temper; the careful balance; the perfect finish; the "tone" and "clack" that satisfies. You are justified in paying any reasonable price for such quality.
